

August 2015

Hi to all

The school holiday period has come to an end and I am about to start a new job in the leading University in our city. I have been asked to run a training class for students who wish to study in Australia. I had held a position like this in the past and gave it up to spend more time in ministry, but financially we need a little bit more for our work so back to the chalk face.

In July I mentioned we had done some meeting in another two of our fellowships in two different provinces, well this month I received news about some healings. Quickly I will tell you about one. A woman came into the first meeting and walked past me and I was drawn to call her back and pray for her as I could see in the Spirit she had a large growth on her back. I prayed for her again and again over the six meeting we had there. I had not asked her what was wrong nor did she say, but it was later that I heard she was told by the doctors she would die. The news I have just received is she is completely healed. To Jesus be the glory.

This month has been an interesting one with 6 new campuses along with many individuals starting to study, 3 in Kenya, 3 in Pakistan and individuals from Zambia, Zimbabwe and some from here in China. We are finding it more demanding but enjoyable to see the results.

We have held two baptisms in our little home church and sweet move of the Holy Spirit with on average 4 people saved each week. We were also blessed this month as a couple who bought a new computer for the fellowship.

In South Africa with Ps Pastor Johnson, Africa Outreach Ministries his students are doing a great job with their studies in year one and two. It is a pleasure to work with such an efficient leader and I enjoy reading the students answers to our studies.

In Pakistan with Ps. Hanif Masih in FAISALABAD his students are progressing well. Ps. Hanif and his wife are working on the translation of another set of notes. They need a sound system.

On the down side some campuses have not sent in their test sheets and are bit slow with their paperwork because they lack a computer and scanner. But all is in God's hands.

Our Little primary school in Uganda is about to start the new term and as always they need help to cover some fees, but by the grace of God we are still moving forward.
