

Trailblazer, Tony Smits Bible College and Trailblazer Ministries Australasia, China, India and Africa -- Impacting Generations with the Light of the Word

Dear Brother and Sisters

We continue to develop young people in the Word of God with our Discipleship course. The book is being used in many countries now. In China we use this study to help in the development of Bible teachers. Here is Happy teaching his first lesson from our book. The book is set out with topics, statements and questions, which the trainee uses as he or she teaches.

Only this week in New Zealand we had two sister complete the first certificate in Discipleship.

Elizabeth Hinekura Isaacs and Lillian Carroll

We were also blessed this month with the Visit of Mrs Chomba 3rd from the left, the mother of Chisanga 2nd from the left, and their friend from Zambia, Africa. Great and powerful preaching.

Our English training classes still continue to develop.

Making bread, pasties, meat pies and egg/bacon pies was also fun this month.

On the 7th July 2015, I arrived in Zhengzhou in Henan in that lies in east central China and north of Changsha where we live. It is where the second son of James Hudson Taylor, **Frederick Howard Taylor** came and introduced Christ to the people. Howard was the first missionary to visit Zhengzhou in Henan. Henan has a population of 265 to 300 million people and has the largest Christian population in China. Hudson Taylor had said it was a difficult area but the Church has grown even with intense persecution. It was from this area many Chinese became missionaries to the rest of China.

Twenty years ago I was praying for Henan and for the Spirit of God to keep moving powerfully and now it's a surreal felling to be here at long last, also adding to that we live in Changsha where Hudson Taylor was based.

We have a young Chinese couple here Jerry and Beth, who have started a work here. We left Zhengzhou travelling north and drove for one and half hours and arrived at Jiaozuo a small city of four million people, to attend a meeting, six and half hours after leaving Changsha with no dinner we went into a meeting of about 50 vibrant Christian in worship. Words of knowledge were flowing as we shared on the Kingdom of God. A great response and they want have more meetings.

On the 8th July 2015, I spent early part of the day resting and after lunch we went to see the channel that was built to take water to Beijing, but the locals don't use it

because it is too expensive.

In the afternoon we had an English class with a large group of Children.

In the evening we had a meeting with a couple who wanted a baby and we prayed for them after explaining some points of Scripture. Following this we went to a man's home who had cancer and was lying on the couch. We anointed him with oil and prayed for Him along his wife too,

We travelled for three and half hours to Xiangxan, Xuchang, Henan, South East of Jiaozuo and had a meeting in a small country town. We had about 20 people come to the meeting.

This is the Taohuayu Bridge crossing the Yellow River. Yes it is almost 8 kilometres long.

On the 12th July, we returned from Xiangxan on Sunday morning. Sunday evening we had a meeting in Jiaozuo with around 80 people attending. We preached on the pearl of God is His Kingdom! The Kingdom has the King and His subjects and all have a part to play. It is a symbiotic relationship. More than 50 people received Jesus because they could see that it is Jesus who paid for them.

People were in 4 rooms listening to the preaching.

said sing which she did and sounded great and she burst into tears and so did a few others.

It was also lovely to catch up with one of our past Bible College students Ruth with her baby. We had lunch together with Jerry and Beth.

Upon saying to the people I was leaving many showed emotions as they said good bye. The Spirit of God was moving in power and love.

Over the six meeting we may have seen a 120 different people with about 60 being saved. We also saw a women's leg grow or become even with some prayer. One women who had been a singer but after an operation her voice was very course, We prayed for 3 times over 3 nights and she gave a testimony of how she felt better and I

See I do, do some teaching.

It appears that I am going back to teaching in a University, as support has reduced and cost of living going up. It will cut down much of my travel but it is all well with our souls. It is one of the best Universities in China. They want me to develop a training course to help Chinees student go overseas.

We have a NEED of support

We have by the grace of God financed the buying of land to build a church and we have helped with finances for building of a school for little children in Uganda Africa.

We have supported many campuses with computers, scanners and printers to aid in their establishment of their campus in Pakistan, Uganda, Kenya, Malawi and Ghana. We are sending almost 40 computers into Africa for Bible College campuses and 2 primary schools in August 2015.

We have also help with breeding programs and taught about incubation of eggs.

In China we have also help supported pastors financially to get started. We have also sent many Books of studies to these countries to establish a College Library. We need prayers and support.

Another Disciple of Tony Smits, Mike Tyrrell is in Uganda where he has about 21 acres of land and we are hoping for support to build a physical campus. Stage one class rooms is \$10,000 but we would need many thousands of dollars to establish a full college. Stage two a library \$5000 also another \$15,000 for stage three, chapel and conference room. The classrooms would be used as a place of worship too.

This development will give us a strong foothold in Africa. Help us to get this going.

We have set up this link if you desire to support us. You may set up a monthly payment using you master cards etc. Or make a one off gift. Please click on this link and start helping.

<http://trailblazer.com/support-our-mission/>

We will now look at some of our campuses around the world reports. We are doing a little but all these wonderful people are doing so much, please pray for them.

Uganda

TRAILBLAZER CHURCHES OF UGANDA REPORT FOR MAY/JUNE 2015.

To Dr. Ian Traill

Dear Sir,

We have had a grace period of one month ministry as I took the Annual leave and travelled to Otuke district. God gave us a grace of ministering whereby we managed to do the following in one of the new church branch planted in the area for building the Bible College.

1. We built a Grass thatched house for prayer
2. We dug a pit latrine and we have started making wall
3. We planted a church branch with 20 members, mostly children
4. We have also managed to get some tools and machines which will help us in training our members and children in Technical skills to help them in development. The loan I got has helped me to implement and raise up some good evidence of development in the land for the Bible college and it is now secure as we wait for the time God will bless you to help us to start building

We also have war children that need help, we have put in plan to open a nursery school next year for the to

study that will be called **“YOUNG GENERATION CARE NURSERY SHOOOL”**

Here are the attached photos.

About the Bible study, I have 15 students that have finished the study and I will be sending their files.

Now I have the following things to do of which I need your help of \$500

1. Church registration to government \$100
2. Finishing our pit latrine \$50
3. Buying chairs and tables \$200
4. Buying second hand clothes for these war children \$150

I also remind you about the house to be completed to help us to open our office and communication centre. We have now three branches in Otuke district. We shall have our General meeting and elect leaders and give you well organized report on church branches leaders plus the names plus the names of Christians and children.

Pray for us as the ministry is growing. Your visitation and any support God may bless you to give us is welcome.

May God bless you abundantly.

Yours faithfully, Pr. Abongo Daniel

Dear Sir

As we have Planted A church branch as the evident of making use of the land for the Bible college, I received A call This morning from pastor Okello E Mosses telling me that the district Health team Visited the church area Yesterday and gave us only 2 weeks to finished our pit and arrange all things in place because they have recommended that church branch for opening nursery school next year. And also to Empower the youth of the area by giving them Technical skill Training. They have also promise to add for us some tools like Sewing machine, carpentry tools, and building tools to help us to train our People. And they want us to finished the registration of the church and take our file to them but they have given us temporal permission to operate for three month. I still humbly request you to help us with 500 dollar to help us to clear the argent issues needed mostly to finished.

The latrine, registration of our church, buying chairs and tables, buying second hand clothes for the needy children. I have just come back from Annual leave and started working. I have no means of getting money until December. Pray for us because it has reached the time that we support of fund to establish our church branches to grow.

May God bless you
Pr Abongo Daniel

Malawi

Thanks very much Dad for the Laptop and Printer Support

Yes indeed, some more equipment are needed, and also an income earner such as the livestock production as is done in some campuses of Traillblazer Ministries, so will it be helpful to Malawi

Am praying to that some more campuses will be opened here in Malawi in all 4 regions.

Am compiling the reports and so soon to put them in the dropbox before the last minute. Thanks for your patience, love on me, and zeal in the work for the Lord. We are praying for your family needs too.

As you pray for us here, please pray also for my son elder Mozes who was admitted yesterday at a private hospital following some swellings in his stomach. Pray that He get well so soon and pray also that God provides me with money to pay for hospital costs. He is undergoing surgery tomorrow, and the proposed hospital fee is \$182. Currently, am stranded, have no money, but still trusting that the Lord is God of POSSIBILITIES.

BE BLESSED ABUNDANTLY

Your son, REV KR CHILEWA, MALAWI/AFRICA CAMPUS

Kenya

Dear Dr.Ian,

We hope you are doing on well with the ministry work. It is a privilege to have you a good friend in the lord.

In our community are many churches but not hearkening to the voice of God. Many people are misled. It is a good move that Julie has done to us here by starting a church that will allow people to read and interpret the bible.

We also thank you a lot for considering us vital to give us a bible college. To assure you if God will help me assist the first lot to complete the certificate well, will be a great change to the entire community. We are focusing this as projects that will enable light of Jesus Christ penetrate our community.

Our sincere request this hour you pray for me and the small church here. We are in lack of bibles which are expensive to purchase. We too lack good shelter and seats for our church proceeds; also we need the church instruments. This just to inform you the areas we could need aid if possible. Therefore we request for your powerful prayers for God to do His will to us here and many other churches of same faith.

PST. ERICK

Uganda Kampala

Good morning Dr.the school is going on well. This week we were asked to pay Local income Tax by Kampala Capital City Authority of \$300 and then we will pay Income Tax of \$100. Pray with us this term have en-counted with many things. We have not been paying any tax as schools. these are new taxes and they are telling us to pay 2 year 13/14 and 14/15 financial yr. we need your help Dr remember we are also stil paying the gate and we have to pay the Teachers and buy food for all children at school and other Administrative needs. Thanks Dr

We thank God for the performance of the children in midterm Exams, we had the visitation day last Sunday and all parents are so happy, this we installed a gate on the school. Thank you the Lynton and Kay for the support towards the gates. You have helped us so much with our building water tank.

We have a testimony of the children who getting born again we have 3 children who turned they were Muslims they are firm in the lord now even sharing and testifying for Christ.

Pray with us as a school we still have challenges like this year we have to Pay new taxes which are so highly. We are informed to add more play machines for children to play. We need to enlarge the school compound and classes, so we need to buy more land.

Thanks for your prayers and support. Pr Achileo, His Grace School

Uganda

We have been privileged to be a conduit of blessing to people here in providing goats/cows for them. So far we have given out four pregnant female goats, two of which have given birth and one cow. The first born that each cow/goat produces will be given out to other families. These animals were able to be given out through the kind donations of fellow believers from China and Australia through Trailblazer Ministries run by Dr Ian Traill.

It is our aim this year to give out at least 50 English bibles and 50 local language bibles. So far we have given out 30 local language bibles and 15 English bibles. Please pray that God would continue to help us fulfil this goal.

Some of the Families with their new goat/cow

Kenya - Nairobi

Say that 50 members from the Trailblazer Tony Smits Bible College attended a P1 graduation event at Kilimambogo where 2 of our members are students and were graduating. This concurred with our monthly voluntary community service event.

This month, we were leading the campaign of saving our water towers and Mt. Kilimambogo was our target. We do this to reach out to the society and preach the Good News of Jesus and to spread the peace message.

It is our role as Traillblazer Youth for Christ to lead other youths in our country to do this bearing in mind that our country has been hit by current spate of terror attacks.

And don't be surprised to get a few yawns in response. Could there be a less-interesting topic? Some might ask. But explain that the members from 13 counties spanning Nairobi, Central, Rift Valley, Nyanza as well as Coast Provinces learned how to protect the mission of our Bible College.

The 5-hour event presented a variety of guidelines on safety, liability issues, protecting children and young people, and yes, insurance. "But holding an insurance policy is not the answer to risk management", said Mr. Ocharo, a former insurance company chief risk management officer. "Insurance is the broom that comes to clean up the mess after the loss has occurred. If somebody's lost their life because of negligence of the supervision of an activity, no amount of dollars will bring that life back," he added, explaining why loss prevention is very important.

As President of Traillblazer Tony Smits Bible College Kenya I hailed him since I often link risk management with stewardship in presentations to local churches, since both are important ways of managing resources for ministry.

The fewer losses you sustain the more money there is for the mission of the college.

Since I left earlier to lead our Voluntary work around Mt. Kilimambogo, I must now leave you with Sent's report of what transpired thereon.

Angel Sent Njeri's report

This event has given me tools and made me more aware of potential dangers and preventative measures. It has made me more proactive since our country is one with a lot of risks in terms of colleges and churches built in danger-prone areas.

As a leader, am very concerned about the potential for loss of life and how to mitigate that risk. As Ian Traill notes in his leadership notes, several leadership aspects arose during this event proving once again that leadership is not only about, "how you do things, but also what kind of person you are."

Ian challenges readers to ask themselves, "What kind of person does God call me to be?"

I try hard not to write about him since he is only a servant of our holy God, but, when it comes to excellence I must quote him in one of Year One books that, "Don't try to do a good thing, do God's thing, it is always good." High five to our dad Ian!

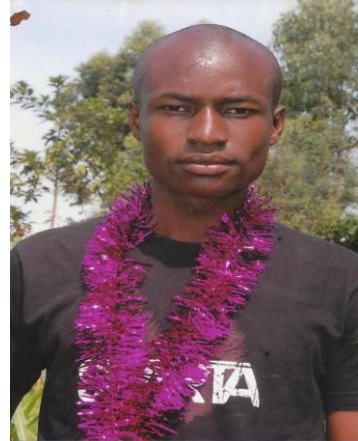

See our students excel all-round!

Traillblazer Kenya Youth for Christ member Robert Onyango walks off the dais after receiving his P1 Certificate at the Kilimambogo.

Below, the Principal presents Eunice Wambui who is also our student with her 'Best in sciences award.'

I don't know what your picture of God is at the moment. But I do know that if you are in the least afraid of Him, angry at Him, uneasy around Him, it is because the separation of sin is keeping you from seeing Him as He really is.

Traillblazer Tony Smits Bible College Kenya has the information you need to see what has happened in the past so you can learn and train local church leaders around your area, at any level to deal with any risk that may affect your church's work.

Motivation is not rivalry to be the best, but because God's work merits excellence.

Because of what I have learned so far, when I attend such events I get to understand that we need to extend leadership's influence a every level of the church and/or college.

We need to have moral authority for those who serve and belong to us, so we can take care of our members who are of the highest value.

Everything we talk about is ministry. I tell the Traillblazer world that our ministry is protecting yours.

Well known institutions like Kilimambogo are united in their goals of serving society as centers of higher learning, advancing knowledge and research, and challenging their students to develop their full intellectual and human potential. But why should we make such an investment in education?

Our Purpose

Traillblazer Tony Smits Bible College Kenya is also deeply committed to quality education. Simply put, it is because we want our children, youth and adults to gain more than what the world can offer them. Higher than the highest human thought can reach is God's ideal for His children. The world has had its great teachers, men of giant intellect and extensive research, men whose utterances have stimulated thought and opened to view vast fields of knowledge....but there is One who stands higher than they. Every gleam of thought, every flash of intellect, is from the Light of the world.

So, while the educational systems of the world seek to impart knowledge, Traillblazer Tony Smits Bible Colleges seek to acquaint students with the Source of all knowledge.

If anything, Traillblazer Ministries has provided me a meaningful worldview built around Creation, the fall, redemption, and re-creation derived from the Bible and the inspired counsel of Dr, Ian Traill.

Within the context of this worldview, service to God and others is emphasized. Restoration of the image of God in every human being is the object of education and life. It strengthens character, fortifies the mind against evil and prepares the learner for service to God and others.

Trailblazer Youth for Christ

Vice-chairperson Angel Sent Njeri far right poses for a photo with students L-R: Fortune

Kawere, James Mwendia Gabriel Mucheru, Fred M, Vincent Muriuki and Hellen during the Function.

Our core philosophy is that education should be redemptive, for the purpose of restoring human beings to the image of God. Mental,

physical, social and spiritual health, intellectual growth and service to humanity are the essential core values.

By focusing on the important mission of providing a biblically based, holistic, mission-driven educational experience, Trailblazer Tony Smits Bible College Kenya has grown from a small Vintrailblazer's Class to a countrywide network of 31 churches as witnessed in our enrollments. Many students ranging from peasant to church leaders have benefited from the Year One course which we pray that some of you will find time to attend our graduation later.

We pray that many will go on to serve as pastors, relief workers and in other service-oriented capacities.

Word from exam's desk

When our campus assists students that is a magnificent thing! We have over 150 students.

Whenever possible, I encourage churches that enrol with us to have at least one laptop and scanner to help them keep their records-even if it is second-hand ones.

I once shared with a friend a second-hand laptop and learned the basic skills of a computer. It has been shown that limited resources provide very good scholars and that students aren't educationally deprived in what may appear to be a limited arrangement.

In remote areas where there are many poor students, it may not be practical for every student to scan his/her exam in time. For example a certain church I attended, they don't have their own laptop leave alone a scanner. This delays our work.

Lets renew our creative ways to encourage our very own students to receive many benefits studying under Trailblazer Ministries.

We only have one laptop and having so many students, we are praying for two more laptops, a 3 in 1 printer copier scanner.

Many of our Bible School students are studying on secular campuses. There can be some great advantages in that these students can be valuable witnesses to many people at their institutions. However, unless we as a ministry take care of these young people and engage them in mission outreach scheme and training, they will often be overwhelmed by their secular environments, unless they are deeply committed staying close to Jesus.

Thank you and God bless you all.

Reported by Julius, (Head, Exams Department)
