Major Need

We have a great need for our Children's program which we run in July. We are looking at having hundreds of children who are spread out over several locations from the south to the north of China. In our city alone we will have almost 400 children in 5 or 6 locations.

We need some Christians who would like to come and work with an English speaking Chinese teacher to teach the children English, English songs, a Play about Jesus. Most classes are between 4 and 8 children. The Children love to see foreigners. We are teaching over the first two and half to three weeks of July and then we will take you to do some sightseeing.

Hi Ian,

We went back to my hometown for holiday and came back Weifang at 27th.Feb, God did great work in my families, God converted my granny from 30 years Buddhist to believe in Jesus! It's so happy to see all the kids getting better and better every day, glory to the Lord!

I am pleased to inform you that because of this servant hood partnership, so far **120** students at Harding Christian Academy have enrolled for the Bible course studies and I am expecting a bigger number to be enrolled before this month ends.

Kenya - Nairobi

Greetings,

Some of us have found favour in studying book 2 of Christology to rediscover that the purposes of Jesus Christ's coming were to reveal the Father, to redeem people from sin, destroying the works of Satan and to rule in his kingdom- Matt 3;2-3, John 18;18-37. But only a few know this.

I used to cry all my lifelong over things that don't matter in my life till I started using the teachings on your website. Am happy I still cry today, but this time for how many souls I shall win daily to do our online studies.

I invited few friends whom we met daily, read a paragraph or two and meditate on it. We still do it today. These teachings not only renew your thinking but also and more importantly make you to read your bible daily. Our network has since expanded. We found even more people attending daily. We recently worked it out to extent our fellowship around Nairobi and its environs.

We have over 21 churches now with students enrolled to do year one biblical studies. This rises the figure to 100 students now. I already sent marks for the subjects covered by 45 students. Am preparing to send their test papers sooner.

Outside Bible study, we must struggle to sustain others to sustain ourselves.

Once a month, Trailblazer Youth For Christ members take part in voluntary work.

We clean our streets through litter collection, we raise awareness on dangers of polluting our rivers, visit children homes and share with them the wonderful Gospel of Christ Jesus of Nazareth.

Through these, we raise funds to print our study material, pay rent and save for more missions ahead.

It is a struggle and we are enjoying the walk.

Please find time to learn more and see our photos on our site.

<https://traillblazerkenya1.wordpress.com/>

Starting a personal relationship with God is what we are encouraging everyone we teach here.

By doing our teachings, one makes the Bible his/her daily devotion and since Satan doesn't have a son, our Father and God's Holy Son Jesus Christ appropriates the Holy Spirit to the mind and the Spirit of our God interprets to whoever has started studying the Holy Bible. It is through this that I have come to differentiate hearing about God and knowing Him. And that has made me a better servant and leader here.

Am still crying that many don't know that we still have dominion over this planet. We are here to be the stars of this planet!

Please pray with us that our people will soon discover that everyone was created for a holy purpose and even if you don't live your life according to that purpose, you are not going to change God's purpose.

Praise, Glory and Honour to our God in heaven through His Holy Spirit and and may peace be with you all though His only begotten Son Jesus Christ.

Dear Ian,

It is a blessing to be one of you in the ministry. I have come to realize God has a purpose for each individual. Our church has been a blessing to my community. Through it i am able to reach the people and share about the lord.

My enrolment last year was 25. Even though some challenges happened to us us we are still doing fine. This year current enrolment may not be very pleasing as many of my people are straining with life. This is not to mean that no enrolment. God is good, our request all our fellow brethrens of same faith to pray for us.

We lack a lot of things to run the church like bibles, so ask for prayers.

Thank you God bless you.
